Personal Statement

As a Full Stack Developer, I enjoy working in end-to-end solutions that create a smooth experience. Specially front-end development, which to me is at the creative heart of engineering in creating user interfaces that captivate and inspire the user. Filled with the enthusiasm of learning new technologies and methodologies, I'm always excited to pick up challenges that fuel my growth. Connect with me to explore the infinite opportunities at the intersection of code and creativity!

Experience

1. **ENCORE investment company** November 2023 - Present, Work as full-stack developer and UI/UX Designer

   Achievement
